

Malaga – Full Time - Permanent

Reference salary 20000€ - 30000€ + Performance related bonus + Profit share scheme

INTRO:

Do you want to make a big impact in a small amount of time? Are you a great team player with bags of self-motivation? If so, we want to hear from you!

We are offering exciting opportunities to join our award-winning technology company at our office in Spain. Metricell is on an ambitious journey to supply its market-leading software to over a thousand mobile networks across the globe, and we'd love you to be part of this.

Our entrepreneurial team shares a passion for technology and we provide a great environment for you to grow and develop your career.

Our team achieves breakthrough results for our clients. You will be expected to play your full part, right from the start. Previous telecommunications experience is not a necessity. Curiosity and a willingness to learn most certainly are!

YOUR DAY TO DAY RESPONSIBILITIES WILL INCLUDE:

- Initiate, develop and maintain applications for Android platforms
- Review code, design and develop new features
- Deliver high quality apps
- Work closely with internal software teams and Product Development Directors to develop an implementation that meets product requirements
- Interact with the test team on a regular basis to identify and address issues in a timely manner

WE REQUIRE YOU TO HAVE:

- Understanding of Java and latest Android APIs
- Experience developing with Android Studio and build tools
- Knowledge with client-server communications using XML, SQL and JSON
- UX/UI Design skills across multiple device types
- Genuinely enjoy a challenge, love problem solving and the technology/progression
- Good communication and interpersonal skills
- Fluent written and spoken English

THESE WOULD ALSO BE GREAT (BUT NOT ESSENTIAL) TO HAVE:

- Experience with iOS development
- Knowledge of Photoshop or other graphics packages

ABOUT METRICELL

We are a young and entrepreneurial ICT company based in the UK. We are now recruiting for our Spanish offices in Malaga, located near Ciudad de la Justicia. We've enjoyed over a decade of rapid innovation and growth which has encompassed the continual evolution of our technology and staff. Metricell is headquartered in the UK but has offices in the USA, Morocco, Malaysia, Russia and Spain, so there are plenty of opportunities to work abroad. We specialize in geospatial intelligence tools that help mobile operators automate a wide range of business processes: from Test and Measurement to Customer Experience Management. We have been responsible for a number of first-to-market products and are pioneers in the areas of Crowdsourcing and Digital Self Care. Our technology is today in use by tens of thousands of personnel working for some of the world's largest mobile network operating groups – and millions of their subscribers.

If this job description doesn't sound like a good fit but you'd still like to work for us, then feel free to send in your CV and we'll be in touch.

You can find out more about us here <http://www.metricell.co.uk/about>
